1. Tape Measure
2. Drill & 1/16" bit
3. Pliers
4. Pencil

1. HOW TO INSTALL

Before installing make sure blind is fully rolled up and secured.
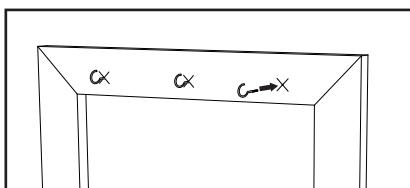

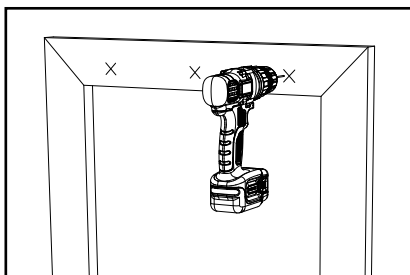

INSIDE MOUNT

OUTSIDE MOUNT

2. POSITION BLIND

Make sure your marks for the screw holes are level or at least the same distance from the top of the window.
For best accuracy, measure the distance with a tape measure.
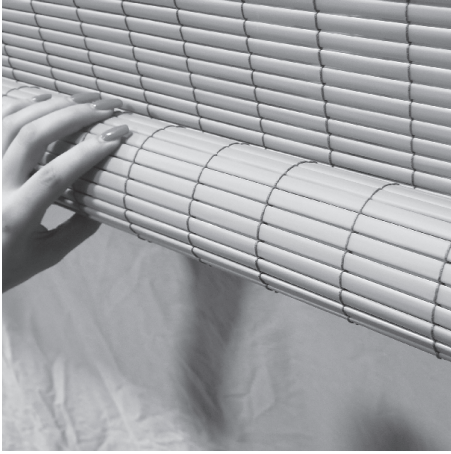

3. INSTALL EYE HOOKS

Drill 1/16" pilot holes at the X marks, insert eye hooks and tighten. If necessary, use pliers to tighten.

4. HANG THE BLIND

To hang the blind, simply hook the mounting eyelets over the eye hooks .

Step 1

Standing in the center of the blind, roll up to the desired height.

## Step 2

Gently hook the fasteners to the **shiny weaving threads on the backside** of the blind.

Side View

Front View

Step 3

Roll up blind until fasteners appear on the front of the blind.

Step 4

Hook the fasteners to the same shiny threads on the front side of the blind.

Step 5

Repeat until all fasteners are secure and level.

Attention To ensure blind hangs level place the fasteners on the same slat row.
