Step 3 - The knots on the right

1. With your left hand, hold thread 2 tight. With your right hand, pick up thread 1 and form a loop to the right of thread 2. Pull thread 1 and raise the knot you've created.
2. Form a second knot in the same way. Pull this knot towards the first knot and place it immediately next to it. The knot must be next to the first one.
3. Thread 1 is now on the right.

Step 4 - The knots on the left

1. With your right hand, hold thread 1 tight. With your left hand, form a loop with thread 2 over thread 1. Pull and raise the knot you've created.
2. Form a second knot in the same way. Pull towards and place next to your first knot.
3. Both threads have now changed places.
