MAKING LADDER CHAIN

We now bring the ladder of chains up each side and hold in the last row with a stitch marker.

Starting at the base of the 1st column of 10ch lps, insert a hook from the front through 3ch lp of round 1, pick up the 1st 10ch lp directly above it and pull it through the lp to the front, then with the ch lp still on the hook, pick up the 2nd lp and pull it through the 1st lp, continue pulling the loops up until you have pulled the 2nd last 10ch lp, and hold it with a stitch marker to the last lp.

Repeat the instruction above for the three other sides,

MAKING STRAPS

Join Mc with a slst into the 4 st on the left on any ladder corner
