## CELTIC KNOT NECKLACE

**e** EASY

### WHAT YOU'LL NEED

- 3m Crafter's choice macrame cord (on 50m roll), we used the colour 'aqua'
- 2 x 1.5cms Ribtex jewelry basics tassel clamp
- 1 x 11mm Ribtex jewelry basics lobster clasp
- 2 x 6mm Ribtex jewelry basics jump rings
- 15cms of 6x4mm Ribtex jewelry basics twisted oval chain
- Fine point glue gun and glue
- Jewellery pliers
- Tape measure
- Scissors

**Finished Size** - 12cm wide x 9cms high, knot only, length can be adjusted to suit as extra length has been allowed for in the measurements.

### INSTRUCTIONS

**Step 1** - Cut 2 lengths of cord to 1.5metres.

**Step 2** - Lay cords together, and form a clover shape (photo 1), paying attention to which side sits on top while maintaining the way the cords sit together.

**Step 3** - Take the right-hand pair of cords

and lay over, under, the first 2 loops of the clover shape. Then complete the knot by laying the cords over the last loop (photo 3)

**Step 4** - Begin the weaving by taking the left pair of cords and threading under, over & under the first clover loop to form a cross with the right-hand pair. (photo 4)

**Step 5** - Now take the left pair, and thread over, under & over the next loop, again forming a cross with right pair. (photo 5)

**Step 6** - Now take the same cords, and thread under, over 7 under the last loop, again forming a cross. (photo 6)

**Step 7** - The Celtic Knot formation is complete, now it is a matter of slowly tightening, by working each pair of cords closer, while maintaining the pairing flat and even

**Step 8** - When you are satisfied with how tightly the cords are woven, place a dab of glue under each cross over point to hold it in place.

**Step 9** - Cut the ends to the desired length, and use pliers to clamp them with the tassel clamps.

**Step 10** - Add jump rings to the clamps. Make a 3cm length of chain on one side, and use the remainder on the other side.

**Step 11** - Add your lobster clasp to the shorter end.
