**D.I.Y. THANK YOU CARDS  
STEP BY STEP INSTRUCTIONS**

*Thank You*

*Dear Kate*

Thank you for all your great help and support throughout the year. You are a true friend and I am so grateful!

lots of love,  
your best friend,  
Em x

**SPOTLIGHT**

## STEP 1 - PRINT TEXT

Start by creating the 'Inner Text Layer' of your card. Using the **Cristina Re Printstation 3 Program** design and print your wording by selecting the 'Card Landscape' option. You will be able to design two perfect A5 cards per A4 sheet. Follow the prompts to design your card in style! Once you have designed the text for inside the card, print onto **Cristina Re 'Blush' A4 Paper**.

Begin another project on **Printstation 3** for the 'Cover Text' of the Thank You Card. Select your perfect font for the 'Thank You' text, making sure it fits inside the 'Card Landscape' guidelines. Follow the prompts to complete your design and print on **Cristina Re 'Blush' A4 Paper**.

## STEP 2 - TRIM

### LAYER 1 - INNER TEXT LAYER

Once the 'Inner Text Layer' has been printed with **Printstation 3**, trim your design using the **Cristina Re Paper Trimmer** by following the guidelines to create two exact A5 pieces to measure 210mm x 148mm. Position the paper to a portrait format and fold down horizontally along the center (105mm).

### LAYER 2 - COVER TEXT

Once your 'Cover Text' has been printed with **Printstation 3**, measure your design to 148mm wide by 45mm high and trim to size. This print out is to be attached on the cover of the Thank You Card exterior.

### LAYER 3 - CARD BASE

To create Layer 3, the 'Card Base', use a single sheet of **Cristina Re 'Hydrangea Rose' A4 Designer DIY Paper** then cut the paper in half into two exact A5 pieces to measure 210mm x 148mm. This size will allow you to perfectly fit the card into a Cristina Re C6 Envelope. Next, position the paper to a portrait format on the **Cristina Re Paper Trimmer** and score the paper along the middle (105mm) to create a fold horizontally along the center.

## STEP 3 - CONSTRUCT GLUE LAYERS

Affix all three layers together using the **Cristina Re Tape Roller**. Start by inserting the 'Inner Text Layer' inside the 'Card Base' and center the designs so the folds meet perfectly in the center before adhering with the **Cristina Re Tape Roller**. Next, fold the card in half to position the 'Cover Text' on the outside of the 'Card Base' and stick down onto the top of the card.

## STEP 4 - EMBELLISH BOW & RIBBON

Now it's time to embellish! Measure a piece of **Cristina Re Ivory Grosgrain Ribbon** to the width of the card (148mm) and adhere with the **Cristina Re Tape Roller** to the cover, just below the 'Thank You' 'Cover Text'. Finish off the cover by using a **Cristina Re Ivory Adhesive Bow** and center it in the middle of the ivory Grosgrain Ribbon. Make a glitzy statement by adding two **Cristina Re Adhesive Rhinestones** inside the card by positioning them either side of the text to complete your design.

## STEP 5 - SEND ENVELOPE

Finally, encase and send your perfect Thank You Card inside a **Cristina Re Ebony Linen C6 Envelope**. Use a **Cristina Re Ivory Adhesive Bow** to seal the envelope or cut innovative shapes out of our **Designer DIY Paper** to impress your guests in style.

## SHOPPING LIST
