

ELMER UNICORN SLIME

EASY

WHAT YOU'LL NEED

- 1/2 tablespoon of baking soda
- 1 tablespoon of contact lens solution
- 4 fl oz 'Elmer' White School Glue
- Food colouring; Pink and Blue.
- Glitter; Pink, Blue and Gold.

INSTRUCTIONS

Step 1. Pour the bottle of a 4oz Elmers School Glue evenly into 3 small sized bowls.

Step 2. Add 1/4 tablespoon of baking soda into each bowl and mix thoroughly.

Step 3. After mixing, add your food colouring to each bowl until you get the colour you want. The gold is only coloured by the glitter.

Step 4. Add 1 tablespoon of contact lens solution.

Step 5. Mix until mixtures get harder to mix and slime begins to form.

Step 6. Add matching coloured glitter to each slime bowl and mix in.

Step 7. Take the slime out and begin kneading with both of your hands. Repeat for each colour. If needed, add 1/4 tablespoon contact lens solution to make the slime less sticky.

Step 8. To combine hold each slime up high and let it stretch out. Once all 3 are long enough, intertwine each one to create a mixed rainbow slime!
