WHAT YOU'LL NEED

- 2x foam bricks
- 1x large moss mat runner
- 2x bags of artificial moss
- 1x bag of water stones
- 1x bag of sand
- Hot glue gun & glue sticks
- A variety of Fairy Garden characters

CREATE THE BOX

Step 1. Take one of the styrofoam bricks and cut off 3ms in width, so the two bricks fit snug in the crate side-by-side.

Step 2. Cut a square piece of moss mat, roughly a bit larger than the crate.

Step 3. Wrap the two Styrofoam bricks, in the piece of moss mat, like you would wrap a gift. Secure the moss mat wrapping to the bricks using a hot glue gun. Place the moss mat wrapped bricks in the crate.

Step 4. Use the hot glue gun to draw strips of glue between the crate slat gaps on each of the 4x sides. Sprinkles chunks of the artificial moss over the glue so it looks like the moss is poking out of the slat gaps.

CREATE THE PATH

Step 1. Layout the water stones to outline a path going through the Fairy Garden. Use the hot glue gun to secure the stones to the moss mat.

Step 2. Using the hot glue gun, fill the inside of the path with glue and sprinkle the sand on top.

DECORATE WITH CHARACTERS

Step 1. Use the hot glue gun and extra artificial moss to secure patches of moss over the top of the Fairy Garden to add a bit more character.

Step 2. Now for the fun part! Use your imagination and place various Fairy Garden characters throughout the scene, secure in place with the hot glue gun!
