FESTIVE FACE MASK

e EASY

WHAT YOU'LL NEED

- 30cm Jocelyn Proust Christmas Fabric
- 30cm Light Weight Fusible interfacing
- 2 x 18cm pieces of elastic
- Sewing machine and matching thread
- Scissors
- Pins
- Iron and Ironing Board

INSTRUCTIONS

Step 1 – Trace around template onto fabric and fusing. You should have 6 pieces in total, 4 from fabric and 2 from interfacing.

Step 2 – Use an iron to fuse the interfacing onto the wrong side of 2 of the fabric pieces. Ensure the shiny side of fusing is facing the wrong side of the fabric as this is what will fuse them together.

Step 3 – Place the fabric pieces right sides facing in and pin in place. Sew together with a 1cm seam allowance along the curved edge.

Step 4 – Snip into the curved seam and then press the seam allowance to one side and top stitch in place. Repeat on other side.

Step 5 – Fold the pleats on each end of the mask, matching the notches and pinning in place.

Step 6 – Stitch 5mm in from the ends of the mask and over the pleats to secure.

Step 7 – Place mask pieces together with right sides facing in. Sew along top and bottom edges with a 1cm seam allowance.

Step 8 – Turn mask right side out. Then carefully fold in roughly 1cm at both ends and pin in place.

Step 9 – Cut 2 pieces of elastic 18cm long and position into the seams at both ends of the mask.

Step 10 – Top stitch around the entire mask securing the elastic at both ends to finish!

Your festive mask is now complete.
