- Crafters Choice Boxed Findings, gld/slv
- Fiskars Hand Punch Circle, 0.16cm
- Fiskars Squeeze Punch, hrt, XL
- Fiskars Hand Punch Circle, 0.6cm

INSTRUCTIONS

Step 1 - First, Decide the colour and shape of your choker. Here we have used Circles and Hearts. There is a variety of shrink plastics available at Spotlight- here we have used the Metallic shrink Plastic from Sizzix.

Step 2 - If you are writing a phrase, then it would be a good idea to start to count the number of letters there are. If the phrase has 3 words with 20 letters, then you will need 20 shapes and 2 blank shapes to break the words.

Step 3 - Now using the Fiskars range of punches, cut out the shapes that you need.

Step 4 - If you are writing letters, use a permanent marker to add letters and create words. Remember if you are using transparent Shrinkies the letters will flip, and the choker will only be used one way.

Step 5 - Line up the shapes and punch a hole in each using the Fiskars handheld punch (0.6cm). The hole will shrink to roughly 0.15cm after shrinking.

Step 6 - Set up your choker so that the design is lining up.

Step 7 - Now lay down your Fiskars Silicone mat and put one shrink shape on it.

Step 8 - Using the CC Heat Tool gun, start shrinking the plastic by evenly heating up the shrink plastic.

Step 9 - Repeat steps 6 and 7 for every shape and keep lining up the shapes to form your Choker.

Step 10 - Now using jewellery findings, construct your personalized choker!
