### WHAT YOU'LL NEED

- Flamingo Printed Hessian Fabric
- Plain Duck, Natural (For lining)
- Matching Thread

### INSTRUCTIONS

**Step 1.** Firstly, cut out all panels of both Flamingo Hessian and Plain Duck Lining as below:

- Flamingo Printed Hessian Fabric – 1x 30x70cm piece for the main body (ensure that the flamingos are in the correct orientation to run around the bucket), 1x 23cm diameter circle for the bottom of the bucket & 2x 9x30cm panels for handles.

- Plain Duck fabric (For lining) – 1x 30x70cms for the main body & 23cm diameter circle for the bottom of the bucket.

**Step 2.** To begin the outside of the bucket, take the Flamingo fabric panels 30x70cm & 23cm round and place them back-to-back so that the wrong sides of the fabric are facing out. Sew one side of 30x70cm panel around the circle panel using a straight stitch.

**Step 3.** Repeat the process in Step 2 with the Duck fabric panels. You will then have 2 separate inside out buckets.

**Step 4.** Turn both buckets (the lining and the outer) inside out.

**Step 5.** Put the duck fabric bucket inside the Flamingo bucket and set it properly. Fold both fabrics together from the mouth of the bucket and them together around the rim.

**Step 6.** To make the handles, trifold the 2x 9x30cm panel's width wise to make a 3cm wide strip and sew it along the length on both edges. Use an iron to crease the fold.

**Step 7.** To attach these handles, sew each end of the handle across the width of handle on the side of the bucket to make a loop.
