### INSTRUCTIONS

**Step 1.** Use the template as a pattern and place it on two pieces of flannelette or felt. Pin the pattern together with both pieces of and then cut them out.

**Step 2.** Take one of the pieces of and create a simple bunny face on it. To do this I used thread to make a delicate sleeping bunny face- but you could also use embroidery floss if you prefer.

**Step 3.** Once the face is on, place the two pieces of together (with the piece with the face on it facing up and out).

Pin and sew them together from ear to ear, being careful to leave an opening at the top to insert treats and treasures.

**Step 4.** And now the fun part! Fill up your bunny with candy or little gifts. If using candy, and it's not prepackaged, I would suggest placing it inside of a little plastic bag before inserting into the bunny.

**Step 5.** Once your bunny friend is full, pull together the ears and tie them together with yarn, ribbon, string, you name it. This keeps the candy tucked tightly inside.
