TAKE + MAKE

GALAXY SHOES

17.18.06

EASY

WHAT YOU'LL NEED

- 'Franchiseville' fabric medium
- Acrylic paint assorted colours
- 'Crafters Choice' paint brushes
- Glitter
- Sponge
- Water

INSTRUCTIONS

Step 1. Start by mixing your paint with the 'Franchiseville' fabric medium. We chose to use a midnight blue, purple and cobalt blue to create the base colour on the shoes.

Step 2. Apply 1 colour of the paint at a time with a sponge. Paint in different areas all over the sneaker, repeat this process with the other 2 colours filling in the gaps. Use the sponge to blend the colours together where they overlap to create a smooth night sky backdrop.

Step 3. Once the paint has dried you can now paint a bit more detail into your night sky. Using white and the original 3 colours of paint shade different areas of the sky to create a realistic looking galaxy. Then use the white paint and a small brush to add stars into the night sky.

Step 4. While the paint is drying lightly sprinkle the glitter in some areas to add an extra sparkle to your night sky! Allow to dry completely before wearing.
