# GIANT GIFT BOWS

**e EASY**

## WHAT YOU'LL NEED

- Paper
- Hot glue gun and glue sticks
- Scissors
- Ruler
- Pencil
- Double sided tape

## INSTRUCTIONS

**Step 1** – Using a ruler and pencil, divide the paper up into strips to the below measurements.

### Large bow:

Centre = 1 x 5cm long x 2cm wide strip

Layer two = 1 x 30cm long x 2cm wide strip

Layer three = 3 x 20cm long x 2cm wide strips

Layer four = 3 x 25cm long x 2cm wide strips

Layer five = 4 x 30cm long x 2cm wide strips

### Small bow:

Centre = 1 x 5cm long x 2cm wide strip

Layer two = 1 x 30cm long x 2cm wide strip

Layer three = 3 x 20cm long x 2cm wide strips

Layer four = 3 x 25cm long x 2cm wide strips

**Step 2** – Starting from the base layer and working up, take a strip of paper and circle one end back on itself to create a loop finishing in the centre. Hold that loop in place while repeating the same movement on the other so you have a figure of eight shape with your paper.

**Step 3** – You can play with the paper until you are happy with the shape and then use a small dab of hot glue to hold the ends in place.

**Step 4** – Repeat this process until all the strips of paper are in a figure of eight shape.

**Step 5** – Lastly, take the strip of paper for the centre piece and loop it on itself to create the middle of your bow. Again, use hot glue to hold in place.

**Step 6** – Now it's time to assemble your bow! Starting with the bottom layer, position the paper pieces on top of each other to form the start of your bow. When you're happy with the positioning of the pieces, use hot glue to hold in place.

**Step 7** – Repeat this process of gluing each layer of paper into the centre of the bow, finishing it off with the centre strip. Your bow is now complete! Attach to presents or gifts with a small strip of double-sided tape.

**Step 8** – Repeat this process with different size strips of paper to create your own unique gift wrapping for Christmas!
