e EASY

GOLD AND GREEN SET

WHAT YOU'LL NEED

- Beadalon Memory Wire Variety Pack (gold)
- Just Bead It Multi-Strands: JBP643, JBP627
- 2 gold jump rings
- 2 gold shepherd hooks
- Memory Wire Cutters
- Wire Looping Pliers
- Flat Nose Pliers

INSTRUCTIONS

Steps for bracelet

Step 1 - Using the large bracelet memory wire cut a piece that allows the wire to go around the wrist 3 times. Add another length that is half the size of the wrist again so there is overlap to work with.

Step 2 - Create a loop at one end of the memory wire. In this way no beads will come off the wire as they are threaded.

Step 3 - Thread one full circle with gold seed beads, one full circle with gold round beads and one full circle with green seed beads.

Step 4 - Check that the beads create a full circle around the wrist for each bead type.

Step 5 - Trim the end of the memory wire so that there is enough length to turn a loop at the end.

Step 6 - Add charms or tassels to the loops if desired.

Steps for earrings

Step 1 - Using the ring bracelet memory wire cut a piece that has a full circle plus a little extra to allow loops to be turned at each end.

Step 2 - Turn a loop at one end.

Step 3 - Thread on one gold seed bead, one green seed bead, one gold round, one green seed bead and one gold seed bead.

Step 4 - Turn a loop at the other end.
