KATIE JACOBS BEARD'S & MO'S

e EASY

WHAT YOU'LL NEED

- Assorted coloured felt sheets (yellow, beige/brown, black, orange, grey, white or you own choice)
- Pen or pencil/card for templates
- Single hole punch
- Scissors
- Craftsmart PVA Glue
- 50cm 'Birch' Hat Elastic

INSTRUCTIONS:

Step 1 – Create templates by drawing your own beard and moustache shapes, similar to the examples in the project. You will need 2 templates per moustache/beard.

Step 2 – Trace around templates onto felt and cut out using scissors. (Cut 2 contrasting colours per moustache/beard).

Step 3 – Punch holes in the larger of two templates for the 'back' moustache/beard.

Step 4 – Measure elastic to your head size by wrapping it around your head un-stretched and cutting this to size.

Step 5 – Use glue to attach top moustache/beard template over the punched holes (so you can't see them).

Step 6 – Place on your face and see if you get recognised!
