ORDER FORM - PANEL BLINDS

Panel blinds are a versatile and contemporary window treatment. Stack back the panels to enjoy your view or simply glide them across to attain total privacy.

Panel blinds are available in a wide selection of fabrics, with both blackout and translucent styles suitable for every home. Choose from many exciting options to mix and match the fabrics to create a unique décor feature.

Panel Blinds are available in widths from 1020mm to 5700mm and drops from 900mm to 3600mm

MEASUREMENT TIPS

- Decide if the blind is more suited to being installed **INSIDE** or **OUTSIDE** of the architrave
- Fill in measurements in millimetres
- The most important measurement is the top of the window as this is the widest part to of the blind and where it is installed
- Use a metal tape measure
- Do not make any allowances for the blind; just measure the inside or outside of the architraves

Spotlight
PH 1300 305 405

HOW TO MEASURE

We've made it easy to customise your Spotlight blinds for any window in your house. We recommend using a steel tape for the most accurate measurement (cloth tape should not be used).

STANDARD MOUNTS

OUTSIDE MOUNTING

For width 'A', measure from one edge of the architrave to the other

For height 'B', measure from one edge of the architrave to the other.
