## INSTRUCTIONS

**Step 1.** For this length mantel we folded the pine garland in half and wrapped each strand around the other to create a very full looking garland.

**Step 2.** Hang garland on mantel so you can decorate knowing exactly how the end result will look.

**Step 3.** Start decorating with the baubles first, spacing them randomly across entire garland. Ensure you place some baubles deep in the garland and some on the surface, this will give it depth and create a fuller looking garland.

**Step 4.** Fill in gaps with assorted picks, remembering to stand back and look at where the garland is lacking decoration.

**Step 5.** Loop the beaded garland evenly across the front.

**Step 6.** Cut 4 even pieces of the wire edge ribbon and tie into bows.

**Step 7.** To finish use wire to secure each bow to the front of the garland.
