## INSTRUCTIONS

**Step 1.** Use a ruler to draw up your square template on a piece of card. We chose to make ours 32cm x 32cm.

**Step 2.** Once you have made your template trace and cut out 10 squares of each fleece fabric. So you should end up with 20 squares in total.

**Step 3.** Once all your pieces are cut start joining the squares together one by one by pinning the sides together and sewing leaving a 1cm seam allowance.

**Step 4.** Sew 4 squares together to create a row, and repeat this process 5 times until you end up with 5 long pieces.

**Step 5.** Now start sewing the long pieces together by pinning length ways ensuring the squares line up neatly along the seam line. Sew together leaving a 1cm seam allowance.

**Step 6.** Repeat this until all panels are sewn together and you have 1 side of the blanket complete.

**Step 7.** For the backing of the blanket cut out a 152cm x 122cm rectangle from the polar fleece.

**Step 8.** Place the 2 panels of blanket with right sides facing in. Pin around the entire edge and sew with a 1cm seam allowance leaving a 10cm gap for turning through.

**Step 9.** Once you have sewn panels together, snip the corners and turn the blanket right sides out. Stich the opening close and your blanket is complete.
