MYSTIC CRYSTAL AGATE NECKLACES

e EASY

WHAT YOU'LL NEED

- Mystic Crystals Pendant
- Mystic Crystal Agate Slice
- Jumprings
- Chain
- Pliers
- Wire cutters

INSTRUCTIONS

Step 1 - Determine the length of the necklace that you need it to be (including the clasp and split rings).

****Important Tip** - Measure the length twice this saves you from cutting the wire incorrectly.

Step 2 - Use wire cutters to cut the lengths of chain to this measurement.

Step 3 - Choose which mystic crystals you would like to pair together, and attach the smaller crystal to one end of the chain using a jump ring and the pliers.

Step 4 - Wrap the other end of the chain through the hole in the larger crystal and attach the chain to itself with a jump rope. This will secure the larger crystal in between the chain.

Step 5 - Repeat this with the other colours to finish.
