NO SEW MACRAMÉ BOWLS

e EASY

WHAT YOU'LL NEED

- 1 x spool of Crafters Choice macramé cord
- Hot glue gun
- Glue sticks
- Scissors
- Acrylic paint
- Paint brushes
- Decorative tassels

INSTRUCTIONS

Step 1 - Starting in the middle, create a spiral around the end of the rope using the hot glue to hold in place.

Step 2 - Continue coiling the rope and gluing in place as you work your way around. Once you've created a flat circle large enough for your bowl base, then begin to glue up the sides.

Step 3 - Once you are happy with the height and shape of your bowl, finish by cutting the end of the cord on a 45° angle and glue down neatly.

Step 4 - Now it is time to decorate your bowl. Choose paint colours to match your theme and paint spots and stripes to decorate the inside of your bowl. Allow to dry before painting a second coat.

Step 5 - To finish, glue decorative tassels on using the hot glue gun.

Step 6 - Allow to dry and display at home.
