It's what you make it.

PERSONALISED BAUBLES

e **EASY**

- Clear fillable baubles
- Adhesive Vinyl in Metallic, Holographic or Solid colours
- Transfer Tape
- Cricut, Silhouette or Brother cutting machine
- Weeding tool & machine cutting mat
- Tinsel, Glitter, Bauble Fillers

INSTRUCTIONS

Step 1 - Open your design app for your cutting machine and create a picture design or text that you would like to place on the outside of your fillable bauble. Keep in mind the size of the bauble and shape.

Step 2 - Select your Vinyl material and following your cutting machine prompts, load the material flat onto your cutting mat ready to be cut.

Step 3 - Cut out your design or text, unload the materials from the machine and using the weeding tool, remove any excess vinyl or shapes that you don't need, leaving you with just your design.

Step 4 - Transfer your design onto the fillable bauble, using the transfer tape. Make sure you put pressure onto the design as you lift it off the Vinyl backing, ensuring you pick up each of your cut vinyl pieces. Press onto your bauble, ensuring it's stuck on securely.

Step 5 - Decorate the inside of the fillable bauble with some tinsel, glitter, or small bauble fillers!
