

POM POM Bunnies

Easy

WHAT YOU'LL NEED

- Grey yarn • Pompom maker
- Grey felt • Black felt • Pink felt
- Hot glue gun
- Grey premade craft pompom

STEP 1

Using your yarn and pompom maker, make two small pompoms, one slightly larger than the other. When you make them, be sure to keep the yarn you use for tying off extra long, and do not trim it.

STEP 2

Using your tying-off yarn, tie your two pompoms together firmly and closely.

STEP 3

Cut two ears from grey felt, using the template. With your hot glue gun, fold the two bottom end in towards each other so that the ears have some shape. Pinch firmly to secure them, but be sure not to burn your fingers with the hot glue. Attach these to the smaller pompom using more hot glue.

STEP 4

Form your black felt, cut two small circles to make eyes. Attach these with hot glue.

STEP 5

From your pink felt, cut one small circle to make a nose. Attach with hot glue.

STEP 6

Finally, attach the grey premade pompom to the back of the large pompom to make a tail.
