RAINBOW UNICORN SLIME

e EASY

WHAT YOU'LL NEED

- 3 bottles of white glue 4 fl. oz.; (All types of Elmer's Glue work with this recipe)
- A non-stick surface like parchment paper, wax (or palette) paper to protect your work surface.
- An apron (or other protective garment) to protect clothing, as the food colouring may stain.
- Candy food colouring (Pink, Yellow, Blue & Purple)
- Contact lense solution
- Baking soda

INSTRUCTIONS

- Step 1** – Pour the bottle of a 4oz Elmers School Glue evenly into 3 small sized bowls.
- Step 2** – Add 1/4 tablespoon of baking soda into each bowl and mix thoroughly.
- Step 3** – After mixing, add your food colouring to each bowl until you get the colour you want.
- Step 4** – Add 1 tablespoon of contact lens solution.
- Step 5** – Mix until mixtures get harder to mix and slime begins to form.
- Step 6** – Take the slime out and begin kneading with both of your hands. Repeat for each colour. If needed, add 1/4 tablespoon contact lens solution to make the slime less sticky.
- Step 7** – To combine hold each slime up high and let it stretch out. Once all 3 are long enough, intertwine each one to create mixed rainbow slime!
- Step 8** – Be sure to store your slime in an airtight, sealable container or re-sealable plastic bag.
