# RIBBON CHRISTMAS TREE

**e** EASY

## WHAT YOU'LL NEED

- Multiple rolls of Christmas ribbon
- Styrofoam cones
- Pins

## INSTRUCTIONS

**Step 1-** Take the ribbon and cut it into 5-inch strands. Cut one piece and then use that piece to measure all the strands so that they're the same length.

**Step 2-** Bend the ribbon in half and attach it to the base of the Styrofoam cone using a pin. Make one complete row. You can use all one colour, or you can mix and match.

**Step 3-** Continue to attach the ribbons using the pins to form another row. Be sure to cover the first row's pins with the second row of ribbons.

**Step 4-** Attach more rows of ribbon to the Styrofoam cone until the entire cone is covered in ribbons. Cover the top of the cone with a strand of ribbon to hide the Styrofoam.

**Step 5-** Use a gift bow or a small star ornament for the top of the tree.
