

Hexagon Card

You will need:

- 663660 - Sizzix™ Big Shot™ Switch Plus Starter Kit (White) (AU version) Switch Starter Kit Dies and Embossing Folder
- 663007 - Sizzix™ Surfacez - Cardstock, 20 Assorted Colours, 80 Sheets
- 664895 - Sizzix™ Making Tool - Fold & Form Tool
- 664140 - Sizzix™ Making Tool - Curved Fine-Tip Tweezers
- Adhesive Foam Tape or Pads
- PVA Adhesive
- Water spritzer/mister

How to make:

1. Take a piece of pink cardstock and fold in half.
2. To create the mini base card, take the largest of the five hexagon dies from the starter kit and place it onto the folded card so that one side just overhangs the folded edge.
3. Sandwich the die and card between your two cutting mats and place onto the platform. Insert the sandwich into the mouth of the machine which will draw it through automatically.
4. Die-cut a smaller hexagon from pale pink card.

Hexagon Card

1. Gently apply a spritz of clean water to both sides of the die-cut hexagon. This will allow the fibres to stretch for a clean, crisp emboss.
2. Place the die-cut hexagon into the heart embossing folder which comes with the Starter Kit and run through the Switch machine following the illustrations provided on the platform to make the correct sandwich.
3. Mount the embossed hexagon onto the face of the mini card using foam pads to add a little dimension.
4. Choose a selection of floral and foliage dies from the many supplied in the Starter Kit and match them to your chosen cardstock before running through the Switch machine.
5. Once you have die-cut all the elements, use your Fold & Form tool to add dimension to the individual leaves, petals, and stamen.
6. Assemble the individual flowers.
7. Finally, attach the die-cut elements to the face of the base card and attach a stamped or printed sentiment of your choosing.
