TIGER FACE PAINT

e EASY

WHAT YOU'LL NEED

- Face paint
- Red lipstick
- Black eye liner

INSTRUCTIONS

Step 1 - Use the white face paint to draw in the tiger's mouth on the top lip area. Also apply the white face paint in two triangular shapes above the brows and down the nose.

Step 2 - Using the orange face paint on a sponge, fill in the rest of the face.

Step 3 - Using soft sweeping motions with a brush, blend the white into the orange. Handy hint- Blending cream paints together gives a more realistic look to the face paint base.

Step 4 - Use the black pencil to draw in the tiger's nose. Bring it up higher on the edges. Fill in the nose and under the nostrils.

Step 5 - Use the black face paint to draw a triangle shape from under the nose to the top of the lip. Fill the top lip black and extend the lines into circles to create the mouth.

Step 6 - Use the white face paint to draw in the fangs.

Step 7 - Add the black tiger stripes by using black face paint on a brush or using the black pencil.

Step 8 - Dot on the whiskers with the black pencil.

Step 9 - Apply the red lipstick to the bottom lip and you're done!
