# UNICORN NAME PLACE SETTING

**e** EASY

## WHAT YOU'LL NEED

- 'Jolly & Joy' standing unicorn, 3pc
- Acrylic paint
- Paint brushes
- Water
- PVA glue
- Glitter
- Metallic card/paper or letter stickers for the names. (We used the 'Cricut' to cut out the names but you can also use scissors or stickers)

## INSTRUCTIONS:

**Step 1** - Start by deciding on your colour palette for the table. We have chosen a bright pink and turquoise. Use acrylic paint and paint brushes to paint the wooden unicorns, you may need to do a few coats to get solid colours. Leave paint to dry.

**Step 2** - While the paint is drying work on the names for each place setting. We used the Cricut machine to cut out our names onto the metallic paper. But you can use stickers or scissors to cut out your own names from the metallic papers.

**Step 3** - Once the paint on the unicorns is dry use a smaller paint brush to paint PVA glue over the sections of the unicorn that you would like to glitter, we chose to glitter the horns, tails and stands of ours. While the glue is still wet, sprinkle glitter over the top and allow drying. Once glue is dry shake excess glitter off into the bin.

**Step 4** - To finish attach letters with PVA glue or stick each letters stickers onto the unicorn's body and display on table setting!
