PROJECT NAME

i INTERMEDIATE

WHAT YOU'LL NEED

- Face and body paints: black, white, and red
- Sponges
- Paint brushes
- Water in a spray bottle
- Water to rinse the brushes and activate the paint

INSTRUCTIONS

Note - Rinse colour from your sponge between steps.

Step 1- Spray water on your sponge to dampen it. Load it with white paint and apply all over the face in tapping motion. Leave the space around the eyes.

Step 2- Spray water on your sponge to dampen it. Load it with grey paint and apply on the eye lids, around the eyes, on the forehead, cheeks and cheek bones.

Step 3- Load your brush with black paint and create the thick and hairy eyebrows, eye liners on the eye lids, and the lines under each eye.

Step 4- Load your brush with white paint and create the fangs on the lower lip. Then use your brush loaded with black paint to outline the fangs and paint the rest of the lips black.

Step 5- Load your brush with red paint and create lines under the eyes and blood on the fangs. Your vampire face painting is now ready!
